BEIRUT INTERNATIONAL DENTAL MEETING 2023

Thursday Oct 5th 2023

Pavilion		Hall A		Hall B	
09:00 10:30	Restoring the smile: adhesive solutions between conservative and prosthetic. Andrea Franzo	09:00 09:45	Défauts amélaire antérieurs: doit on traiter avant ou après la thérapeutique orthodontique? Patrick Rouas	09:00 09:30	Les appareillages orthodontiques: le bon choix. Sylvie Dupont
		09:50 10:20	Seal or no seal using canary system. Nada Jaafar	09:30 10:00	Apport de l'orthodontie dans les réhabilitations esthétiques. Frédéric Raux
		10:30 11:00	MIH Molar Hypomineralisation treatment modalities. Maïa Ayoub	10:00 10:30	Class III correction with microimplant supported molar distalization. Fidel Nabbout
				10:30 11:00	Smile Design: Raising the level of orthodontic treatment practices? Muhannad Kazzaz
11:00 12:30	Séance inaugurale/Opening ceremony				
12:30 13:00	Inauguration de l'exposition/Exhibition inauguration				
13:00 14:00	Déjeuner/Lunch				
14:00 14:45	Cold single cone obturation versus warm gutta-percha obturation. Ghassan Yared	14:00 14:30	Tips and rules for optimal intraoral scanning. Joseph Sabbagh	14:00 14:30	Aligners: from thoughts to reality. Joseph Bouserhal Léa Bouserhal
14:45 15:30	The print & try technique for managing external cervical resorptions. Ricardo Tonini	14:45 15:30	Creating esthetic restauration using analog and digital solutions. Phophi Kamposiora	14:30 15:00	Orthodontics and general dentistry: How to bridge the gap. Ramzi Haddad
				15:00 15:30	7 tips to improve your clinical strategies in aligners treatment. Samar Bou Assi
15:30 16:00	Coffee break	15:30 16:00	Coffee break	15:30 16:00	Coffee break

16:00 16:45	Strategies for predictable esthetic outcomes of anterior implants: Preservation VS Reconstruction. Juan Mesquida	16:00 16:45	The power of current techniques in anterior direct composite resin restorations. Esra Uzer	16:00 16:30	An analysis of the biological properties and clinical features of bioceramic root canal filler. Issam Khalil
16:45 17:30	Modern graft material in immediate implant placement. Dominic O'Hooley	16:45 17:30	How can rubber dam isolation increase the efficiency in restoring posterior teeth? Calin Pop	16:30 17:00	Rotate or Reciprocate an eternal debate. Edouard Rizk
				17:00 17:30	The Ultimate Upgrade: Strategies to overcome endodontic stress. Shereen Alattar

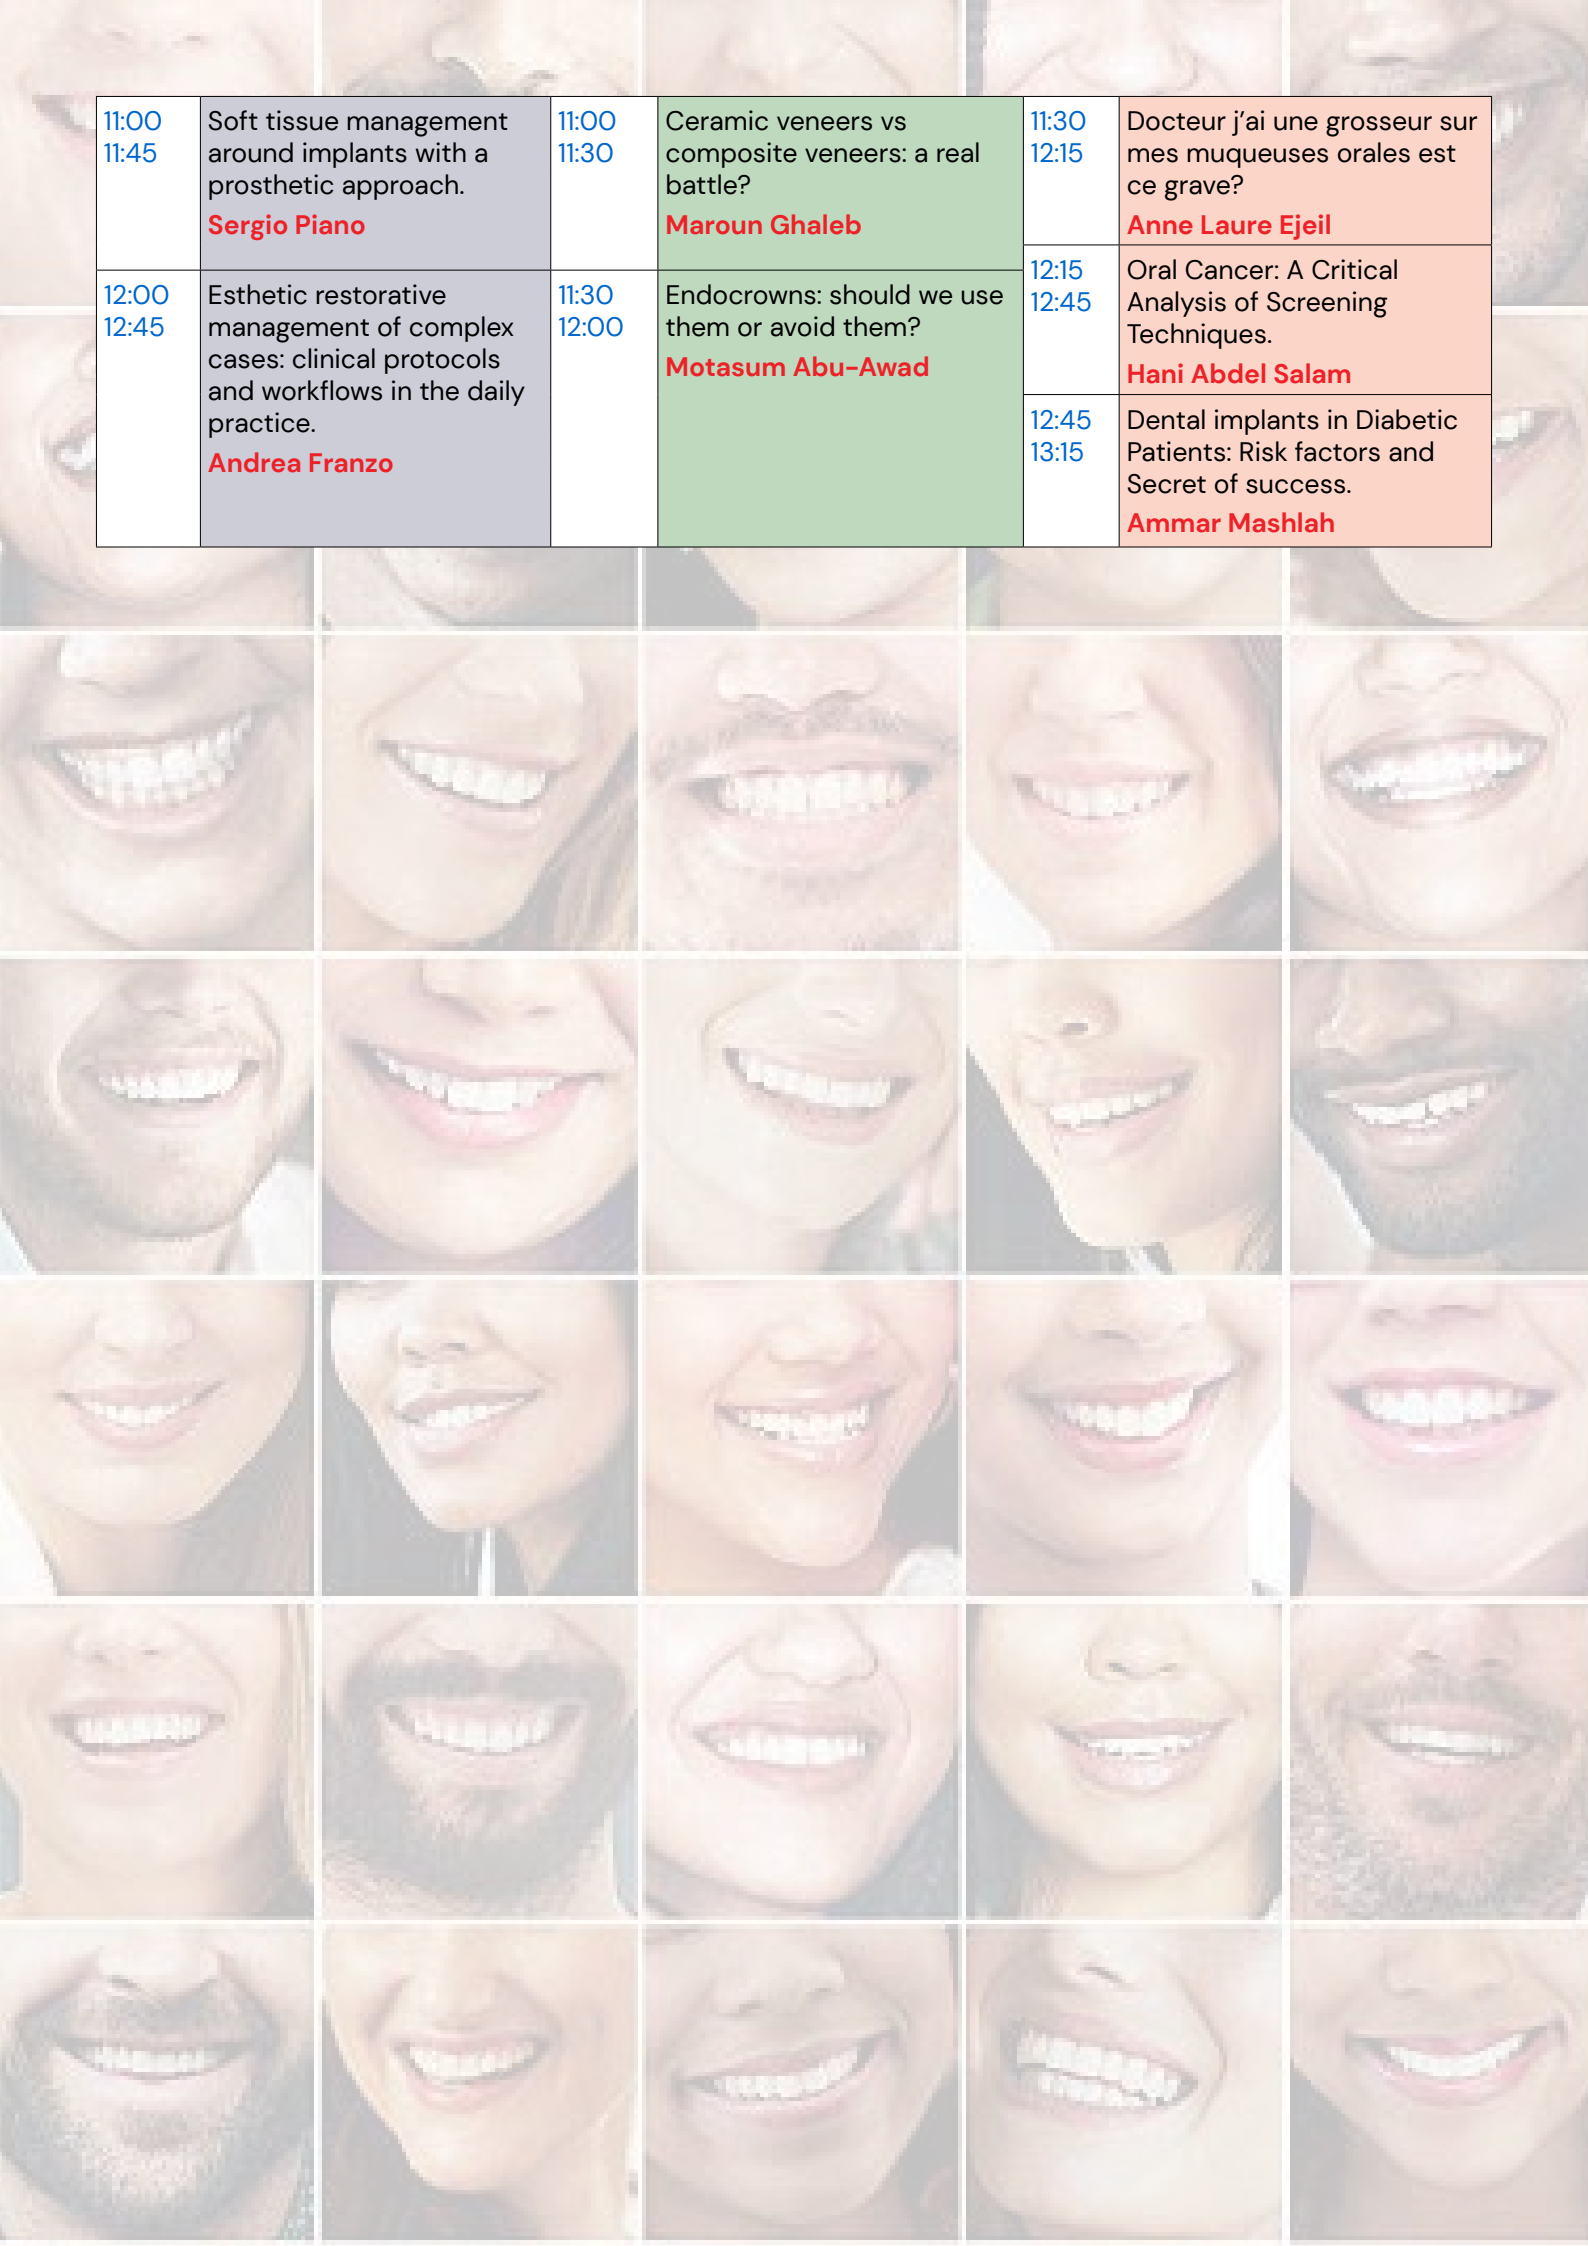

Friday Oct 6th 2023

Pavilion		Hall A		Hall B	
09:00 09:45	Conventional v/s Digital impression on full arch natural teeth. Nael Eid Karim Corbani	09:00 09:45	Antibiotics in dentistry: A paradigm shift. Hani Abdel Salam	09:00 09:45	Diagnosis of apical periodontitis: clinical evaluation, analysis of difficulties and treatment strategy in endodontics. Nicolas Gardon
		09:45 10:30	Orofacial pain, TMD, Sleep. Connecting the dots. Nabil Tabbara	09:45 10:15	Pain management, Emergency in root canal therapy. Nelly Abdelsalam
10:00 10:45	Surgical Approach of Atrophic Jaws. Fernando Duarte	10:30 11:00	Obstructive sleep apnea hypopnea syndrome in children: the role of professionals. Lina Medawar	10:15 10:45	Broken file dilemma. Waleed Kurdi
10:45 11:00	Coffee Break	11:00 11:15	Coffee Break	10:45 11:15	Coffee break
11:00 11:45	Un objectif: reconstruire l'os en implantologie Deux protocoles: os autogène-os allogénique. Serge Armand	11:15 12:00	Optimiser le résultat esthétique en chirurgie plastique parodontale. Xavier Struillou	11:15 13:00	The digital revolution. The impact of digital workflow in implant dentistry Ioana Datcu Mario Imburgia
11:45 12:30	Autogenous, Allogenic and Xenogenic grafts: Enemies or accomplices in bone augmentations? Georges Khoury	12:00 12:30	Dealing with moderate to severe bone deficiency: Advanced techniques and approaches. Elie Azar Maalouf		
12:30 13:15	The failing/missing single mandibular incisor: The Ultimate Surgical and Restorative Challenge. Juan Mesquida	12:30 13:00	Gingival augmentation around natural teeth, the truth about keratinized tissue. Hazem Sawaf		
13:15 14:00	Lunch	13:00 14:00	Lunch	13:00 14:00	Lunch

14:00 14:45	Is CBCT the right imaging modality for implantology? The low-down. Jahanzeb Chaudhry	14:00 14:45	Endodontic-Periodontic and Peri-Implant Defects: Diagnosis and management. Nada Naaman Alfred Naaman	14:00 14:30	The CBCT importance in diagnosing the dental implant complications and mistakes. Ahmad Hallak
15:00 15:45	Saving Teeth - A minimal invasive approach. Hélder Oliveira	15:00 15:45	Part 1: Pain-free pulpal anesthesia from needle insertion to completion of endodontic treatment, in every case. Part 2: Emergency treatment of symptomatic / acute irreversible pulpitis without a pulpotomy or a pulpectomy. Ghassan Yared	14:30 15:00	How to make surgical extraction of impacted tooth safe. Mohtaz Al Khan
15:00 15:30		15:00 15:45		15:00 15:30	Lateral ridge augmentation in the posterior mandible. How easy can it get? Johnny Nohra
15:45 16:15	Coffee break	15:45 16:15	Coffee break	15:30 16:00	Coffee break
16:15 17:45	The digital revolution. Digital workflow in prosthetic rehabilitation on natural dentition Ioana Datcu / Mario Imburgia	16:15 16:45	Input of Cone Beam CT for implant placement in the esthetic zone. Ibrahim Nasseh	16:00 16:30	Indirect ceramic restorations, solutions for compromised smiles. Hakam Mousa
		16:45 17:30	Diagnostic imaging for endodontics. Jahanzeb Chaudhry	16:30 17:00	Success evaluation of PKK and PEEK v/s fibre reinforced post. Mirza Allaf
				17:00 17:30	Plan the no plan in anterior cosmetic cases. Mohamed Abdallah

Saturday Oct 7th 2023

Pavilion		Hall A		Hall B	
09:00 09:45	La décision thérapeutique : limiter les échecs dans nos traitements. Michel Bartala	09:00 09:45	Soft Tissue management around implants. Helder Oliveira	09:00 09:45	Simplification of the treatment using narrow implants, short implants, tilted implants, prosthetic components. Sergio Piano
09:45 10:30	Traitement de surface des restaurations indirectes (composite, céramiques, matériaux hybrides) Nicolas Lehman	10:00 10:30	Successful management of gingival recession. Nayer Aboelsaad	09:45 10:15	NRP Decision protocol between immediate implant placement and socket preservation. Iyad Ghoneim
				10:15 11:00	Immediate implant placement in the anterior zone: the full recipe from planning the implant to the delivery of the final prosthesis Karim Dada
10:30 11:00	Coffee break	10:30 11:00	Coffee break	11:00 11:30	Coffee break

11:00 11:45	Soft tissue management around implants with a prosthetic approach. Sergio Piano	11:00 11:30	Ceramic veneers vs composite veneers: a real battle? Maroun Ghaleb	11:30 12:15	Docteur j'ai une grosseur sur mes muqueuses orales est ce grave? Anne Laure Ejeil
12:00 12:45	Esthetic restorative management of complex cases: clinical protocols and workflows in the daily practice. Andrea Franzo	11:30 12:00	Endocrowns: should we use them or avoid them? Motasum Abu-Awad	12:15 12:45	Oral Cancer: A Critical Analysis of Screening Techniques. Hani Abdel Salam
				12:45 13:15	Dental implants in Diabetic Patients: Risk factors and Secret of success. Ammar Mashlah
